CASTRO DEPORTED FROM MARTINIQUE

Police Place the Ex-President Aboard Steamer and he Will Now be Taken to France.

Protests Against the Action of the French Government Ordering His Expulsion.

(By Associated Press.)

FORT DE FRANCE, April 10.—Ex-President Castro was placed aboard a launch tonight and transported to the steamer Versailles, following the orders of the French government that he be deported from Martinique. Castro protested to the last against his expulsion from Martinique by the French government but his protests were in vain. He is now aboard the steamer bound for St. Nazaire. An official notice was given Castro this morning of the decision of the French government that he must leave within nine hours. The ex-president sought all day for an excuse to avoid the order and late today summoned a lawyer and a physician to verify he was unable to leave the country. The government refused an extension of time and a commissary police with a large force of gendarmes proceeded to Castro's hotel. Castro locked himself in the room. After entering the room the authorities decided to permit another medical examination. A physician decided that his life would not be jeopardized by removal, and he was carried in a stretcher to the steamer. Thousands of the population expressed their sympathy for the ex-president.

MEASURE PROVIDING FOR TAKING CENSUS PASSES THE SENATE

(By Associated Press.)

WASHINGTON, April 10.—The bill to provide for the taking of the census passed the senate today in a form which it is understood will meet with the views of the president regarding the appointments for the census work under the regulation of the civil service committee.

The efforts by some of the senators

to allow these appointments upon the recommendation of senators and representatives met with little support. In a speech, Bailey said of the bill as passed, if it did not provide for appointments under the civil service rules the president would veto it, and added if any such "threat" was made it would stir up severe criticism of the president.

JAPANESE ARE SATISFIED WITH FRENCH TREATY

(By Associated Press.)

TOKIO, April 10.—Reports emanating from Vienna to the effect that Japan intends to notify Great Britain of a purpose to terminate the British-Japanese alliance are absolutely without foundation. The alliance has ten years to run from 1905 and there never has been the slightest evidence of discontent on the part of Japan with the treaty.

rooms has been prepared with a state cradle, but the real cradle will be a homely wooden Dutch cradle. WILL GIVE BOND FOR APPEARANCE

L. L. PATRICK WILL MAKE HIS BOND AT ONCE, AND ASSESS INOCENCE.

(Special to the Bonanza.)

GOLDFIELD, April 10.—E. T. Patrick returned yesterday from Carson City, where he went for the purpose of looking into charges which formed the basis of the recent indictment against his brother, L. L. Patrick, for fraudulent uses of the government mail.

"I went into the details pretty closely," said Mr. E. T. Patrick to a Tribune man yesterday, "and I feel like there can be no trouble in dismissing the charges against my brother. I have communicated to him all the information I have regarding the case, and he is confident that he will have no trouble in establishing his innocence. He is in Washington today, and will go from there to New York, where the papers in the case will be served and his bond of \$2500 will be made. I do not expect his return to this city for some time yet, as he is busy in getting affairs together for the smelter at Luning, which was the original purpose of his visit east. In his telegram he states that everything is looking good, and contrary to expectations, the fact of his indictment did not affect the situation in the least, and it is very probable the big plant will be built. Of course, it can not be said that any particular date may be given for the commencement of the work, but it is sufficient at this time that Nevada is to have a smelter, even though it will not be in the same capacity as some of the large ones of the country, where the ores of Goldfield and other of the larger camps of the state may be treated at a good deal less than what they have been compelled to pay in the past. The erection of this plant will mean the prosperity of a number of the smaller producing properties in this and other sections of the state, and will serve to add impetus to the coming good times for old Nevada and the whole state of Nevada."

"WE'LL MAKE OUR MONEY HERE AND WE'LL SPEND IT ABROAD."

(By Associated Press.)

NEW YORK, April 10.—Commenting tonight on the wave of prohibition now spreading over the country Richard Croker predicted that this course if persisted in would drive rich Americans abroad, where more liberal views prevail.

"Europe," said he, "can give us pointers on personal liberty. Here we stopped horse racing, one of the grandest sports there is. We class it as a crime. We legislate as to what and when a man shall drink. The whole question will resolve itself to this:

"We'll make our money here, but will go to Europe to enjoy it."

Speaking of the president whom he met during his stay in Washington, Mr. Croker said:

"He is a fine big, splendid, whole-souled man, genial and smart. He'll be more than equal to any emergency this country may have to face. He is there with the poise and the brains, backed by plenty of physical strength."
